Plantronics CS55

The Plantronics CS55 wireless headset system combines the clarity of traditional corded technology with the mobility of wireless, so employees can move around the office to wherever business takes them—without interrupting or missing a call. Plantronics presents CS55 as the first headset in the United States to implement 1.9GHz UPCS voice-dedicated wireless technology.

- VOIP
- DECT 6.0
- Roam hands-free up to 300 feet
- Extended hands-free talk time - up to 10 full hours
- One-touch control over calls and volume
- Enjoy the flexibility of three convertible styles
- Ensure call privacy with digitally encrypted security
- Reduce the wait: battery recharges in three hours

Plantronics CS70N

The CS70N gives you the best of both worlds in one professional wireless headset: premium audio performance and sleek, comfortable styling. Featuring a top-of-the-line, Noise-Canceling microphone for clear speech even in environments with distracting background noise, the CS70N is perfect for a wide variety of users and business environments. A stylized, lightweight behind-the-ear design is not only discreet, it is comfortable enough to be worn all day. A superior microphone and earpiece create a high-performance headset yielding great results for both traditional phone lines and IP telephony systems. The CS70N offers wireless freedom with no compromises.

- VOIP
- DECT 6.0
- Top-performing Noise-Canceling microphone
- Discreet, stylized design
- Lightweight and comfortable all day
- Optimized for performance with IP desk phones
- Recommended for all environments, even those with loud noise levels

Plantronics Encore H91N - Noise Cancelling

Top-of-the-line model that offers all-day comfort and superior sound quality. Lightweight over-the-head single earpiece design for comfortable extended-wear use. Quick Disconnect feature lets you walk away from the phone while still wearing the headset, while the noise-canceling microphone improves voice clarity.

- VOIP
- Single earpiece headband style
- Noise-canceling microphone
- Adjustable
- Soft ear cushions for all day comfort
- Flexible boom
- Tone control

**Plantronics Savi
WO100**

Savi™ Office is the wireless headset system built to unify voice communications. This enterprise-grade headset system connects to both your desk phone and PC, providing business critical sound quality necessary in today's working environment. Use the Savi Office headset system to mix and match calls between your PC and desk phone—conveniently combine a desk phone call with a PC call for real-time collaboration, or easily switch from one type of audio to another. Plus, the Savi Office headset system offers a long wireless range for natural movement along with a wide variety of comfortable wearing styles, interactive software for personalisation, and an adaptive battery system providing an energy efficient approach to power usage.

- Unified Communications
- Work smarter with real-time communication and collaboration on your PC and desk phone
- Unsurpassed versatility with ease of use, modular design and cross platform support
- Delivers business critical sound quality, whether on a desk phone or PC, with a noise-cancelling microphone that filters distracting background noise
- Wideband support for PC audio provides life-like fidelity, improving call clarity
- Multiple wearing styles for personal style and comfort
- Simple Plug and play experience minimizes implementation risks

**VXI Passport 10P-DC
Monaural Headset**

- Compatible with Plantronics or Passport P-series lower cords
- Noise-canceling microphone blocks out the sound of surrounding agents
- Flexible gooseneck microphone boom ensures proper microphone placement
- Impact-resistant plastic withstands the intensity of the 24/7 contact center
- Durable construction means fewer repairs and less hassles
- Very comfortable & lightweight
- Lower cord required to connect to phone (sold separately).

Noise-canceling headset with Plantronics compatible quick disconnect for phones that do not require the use of an amplifier

**Plantronics
SupraPlus CS361N**

Contact center and other professionals with phone-intensive roles will appreciate the wireless convenience, clarity, and security that the CS361N Binaural SupraPlus Wireless Headset System offers. Featuring DECT 6.0 and noise-canceling technologies, this dual-ear headset offers superior, interference-free audio performance and a roaming range of up to 300 feet. The included handset lifter lets users answer and end calls away from the desk, giving them the flexibility to take care of important office business while still attending to calls.

- Noise-canceling microphone for mission critical sound clarity
- Over-the-head, binaural design for comfortable all-day wear and total call concentration
- DECT 6.0 for interference-free communication and roaming range of up to 300 feet; 64-bit encryption security
- Handset lifter lets users answer and end calls remotely
- Wireless headset optimized for use with traditional desk phones
- Up to 10 hours of talk time on a single battery charge
- One-year warranty
